

**Warranty:**

We fully guarantee all parts and materials for five years excluding vandalism or acts of nature.

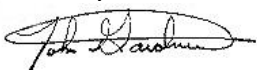

Powdercoated surfaces are guaranteed for one year.

Our thermoplastic coating is guaranteed for five years.

The thermoplastic coating will not fade, crack, peel, warp or discolor for 5 years.

Thermoplastic can be easily repaired. Cuts are repaired by heating the affected area with an industrial heat gun. The thermoplastic will re-bond itself. The properties of thermoplastic also make spray painting difficult for vandals. Simply wash the product with a standard industrial cleaner. We recommend WD40.

Sincerely,

John Gardner
